Re: National Pollutant Discharge  
Elimination System (NPDES) Permits

Dear Sir:

We are enclosing Permit Summary Tables (PST) for seven dischargers in New Jersey. These PST's present the tentative determinations of my staff, including the technology based effluent limits and the rationale used in developing the limits, to be used in creating National Pollutant Discharge Elimination System (NPDES) Permits.

The dischargers for which PST's are enclosed are:

Bernards Water Company	2SD OXW 2 000415
Ciba-Geigy	2SD OXW 2 000136
Orange Products, Inc.	2SD OXW 2 000347
Intermediate Division,	2SD OXW 2 000022
Tenneco Chemicals	
Marcal Paper Mill	2SD OXW 2 000619
Otis Elevator Company	2SD OXW 2 000682
S. B. Penick	2SD OXW 2 000882

Before proceeding with public notices of our intent to issue these NPDES permits, we would appreciate any comments you may have relative to these companies and the attached PST's.

On November 12, 1973 a letter was sent to Mr. G. Friedel of the New Jersey Department of Environmental Protection requesting formal certification for these dischargers as required under Section 401 of the Federal Water Pollution Control Act Amendments (FWPCA) of 1972.

Please provide any comments you wish to make within 30 days so that delays in the permit issuance process can be avoided. Thermal considerations should be included.

We appreciate your cooperation in this matter. Such cooperation is essential if dischargers in New Jersey are to meet the deadlines for pollution abatement stated in the FWPCA of 1972.

Notes: The PST's for the following applicants located on the Passaic River will be forwarded to you in the immediate future:

National Gypsum Company	2SD OXW 2 000570
Armour Pharmaceutical	2SD OXW 2 000597
Newark Asphalt Corporation	2SD OXW 2 000247
Immont Corporation	2SD OXW 2 000577
PSE &G	2SD OXW 2 000155

Sincerely yours,

Ernest A. Regna  
Chief  
Industrial Water Facilities Branch  
Facilities Technology Division
